

## Voluntary Product Accessibility Template (VPAT)

**Name of Product: Canon imageWARE Enterprise Management Console Version 3.3.1**

**Date: June 26, 2014**

Note: This document was prepared based on normal walk-up functionality. It does not include maintenance and troubleshooting procedures. **The information contained in this document is proprietary information and is not for reproduction, publication or manipulation in any way or form.** This template addresses a multitude of **Canon imageWARE Enterprise Management Console Version 3.3.1** features; however, any specific inquiries should be made to Canon Government Marketing Representative.

The rules below refer to the Electronic and Information Technology Accessibility Standards (covered by Section 508 of the Rehabilitation Act of 1998) issued by the Architectural and Transportation Compliance Board. Comments in the “Supporting Features” column are based on the Information Technology Industry Council’s suggested language for use when filling out the Voluntary Product Accessibility Template. The Remarks and Explanations column provides additional information on the evaluation results, and explains the standard functions of **Canon imageWARE Enterprise Management Console Version 3.3.1** that can accommodate users with disabilities.

### Summary Table Voluntary Product Accessibility Template

Criteria	Supporting Features	Remarks and explanations
Section 1194.21 Software Applications and Operating Systems	Not applicable.	This product is not an application software or operating system.
Section 1194.22 Web-based Internet Information and Applications	Supports.	This product supports the basic criteria of this section.

\*Please refer to the following pages for detailed information on supporting features and exceptions.

**Section 1194.22 Web-based Internet Information and Applications**

Criteria	Supporting Features	Remarks and explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Supports.	Images that convey important information have text that explains the purpose or meaning of the image.
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Not applicable.	This product does not use any multimedia presentations.
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Supports.	Information and instructions are not communicated only through color. They are understandable from context or markup.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Supports with exceptions.	Documents are readable without requiring an associated style sheet.
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not applicable.	There are no image maps.
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not applicable.	There are no image maps.
(g) Row and column headers shall be identified for data tables.	Supports.	Row and column headers can be identified for data tables.
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Supports.	Data tables that have two or more logical levels of row or column headers meet the criteria.
(i) Frames shall be titled with text that facilitates frame identification and navigation.	Not applicable.	This product does not have frames.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Not applicable.	There are no flickering screens.
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Not applicable.	It is not necessary to create a text only page for this product. It follows the standard recommendations in 1194.22.
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Supports.	The information can be read by Assistive Technology (JAWS).
m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with 1194.21(a) through (l).	Not applicable.	Applets or plug-in applications are not necessary.
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the	Supports.	Assistive Technology (JAWS) can read the information, field elements, and functionality required for completion and

information, field elements, and functionality required for completion and submission of the form, including all directions and cues.		submission of setting information, including all directions and cues.
(o) A method shall be provided that permits users to skip repetitive navigation links.	Supports with exceptions.	A part of repetitive navigation links can be skipped by closing the menus.
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not applicable.	Timed responses are not required.

**Section 1194.31 Functional Performance Criteria**

<b>Criteria</b>	<b>Supporting Features</b>	<b>Remarks and explanations</b>
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Supports.	When a screen reader or screen magnifier is used, blind or visually impaired users can use this product.
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Supports.	When a screen reader or screen magnifier is used, blind or visually impaired users can use this product.
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided.	Supports.	This product does not require user hearing.
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Not applicable.	Audio information is not necessary for standard use of this product.
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Supports.	User speech is not required to operate this product.
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Supports.	Fine motor control or simultaneous actions are not required to use this product.

**Section 1194.41 Information, Documentation, and Support**

Criteria	Supporting Features	Remarks and explanations
(a) Product support documentation available to end-users is available in alternate formats upon request, at no additional charge.	Supports.	Product support documentation will be provided upon request in electronic format, at no additional charge.
(b) End-users have access to a description of the accessibility and compatibility features of products in alternate formats and alternate methods upon request, at no additional charge.	Supports with exceptions.	An evaluation of the accessibility features of products will be provided upon request in electronic format, at no additional charge.
c) Support services for products accommodate the communication needs of end-users with disabilities.	Supports.	Canon U.S.A., Inc. provides support services accommodating users with Disabilities through OKCANON assistance, TTY support at (866) 251-3752. Canon otherwise available to U.S. federal government agencies through Federal Relay.
